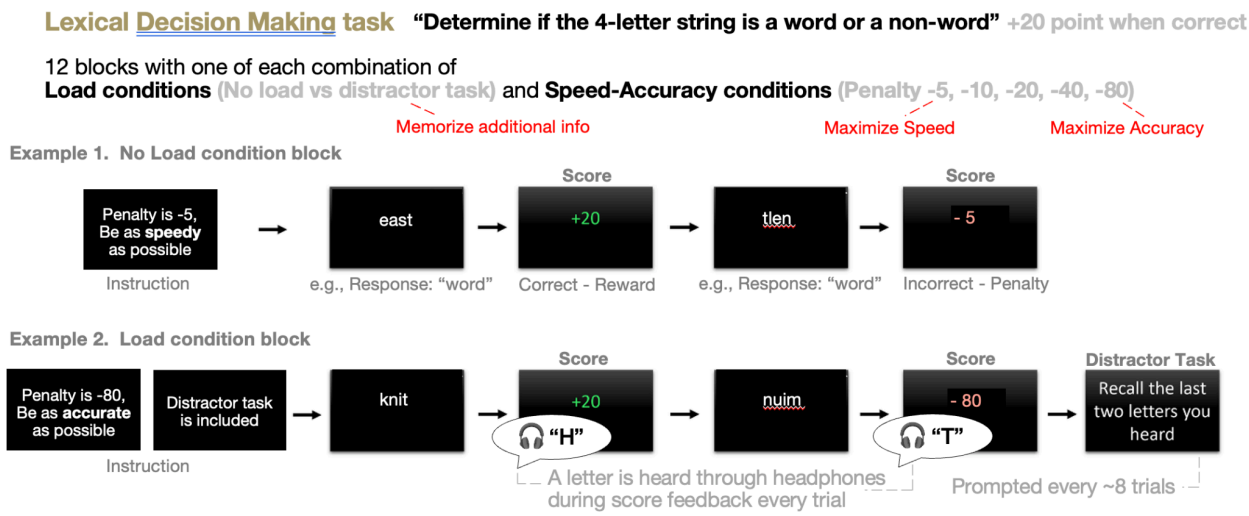
Suboptimality Task - Lexical Decision making with Speed/Accuracy varying demands



Speed Condition	Load Condition	Strategy	Actual Instruction	Reward (Correct)	Penalty (Incorrect)
Speed_Max	No Load	Speed	To maximize your score, answer quickly, because errors will not be penalized very much.	20	-5
Speed_Max	Load	Speed	To maximize your score, answer quickly, because errors will not be penalized very much. Also, there will be the additional task of memorizing letters presented during feedback.	20	-5
Speed_Mid	No Load	Speed	To maximize your score, try to answer relatively quickly, because errors will not be penalized very much.	20	-10

Speed_Mid	Load	Speed	To maximize your score, try to answer relatively quickly, because errors will not be penalized very much. Also, there will be the additional task of memorizing letters presented during feedback.	20	-10
Neutral	No Load	Neutral	Try to earn as many points as possible to maximize your score.	20	-20
Neutral	Load	Neutral	Try to earn as many points as possible to maximize your score. Also, there will be the additional task of memorizing letters presented during feedback.	20	-20
Accuracy_Mid	No Load	Accuracy	To maximize your score, try to answer relatively carefully, because errors will be heavily penalized.	20	-40
Accuracy_Mid	Load	Accuracy	To maximize your score, try to answer relatively carefully, because errors will be heavily penalized. Also, there will be the additional task of memorizing letters presented during feedback.	20	-40
Accuracy_Max	No Load	Accuracy	To maximize your score, answer carefully, because errors will be heavily penalized.	20	-80

Accuracy_Max	Load	Accuracy	To maximize your score, answer carefully, because errors will be heavily penalized. Also, there will be the additional task of memorizing letters presented during feedback.	20	-80

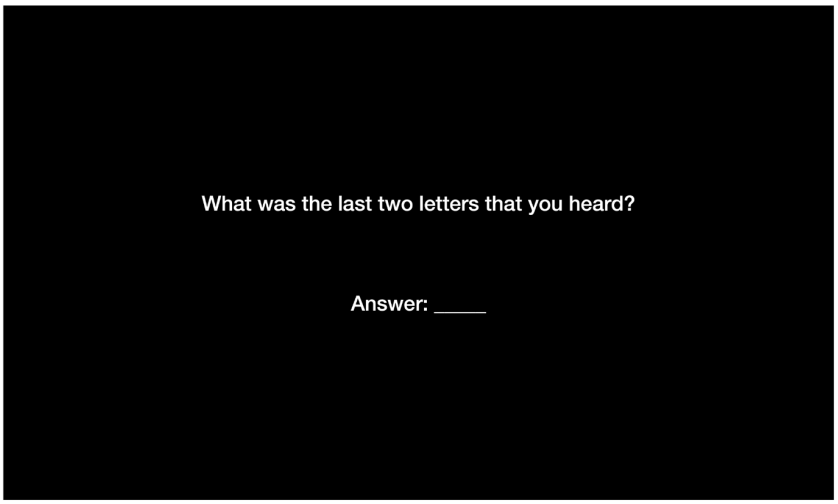
Example of one condition

For this block,
Reward is 20, penalty is -40
To maximize your score, try to answer relatively carefully,
because errors will be heavily penalized

There will be an additional task:
you will hear a letter during every score feedback.
Randomly, you will be asked to report the last 2 letters you have heard.

Is this a real existing word or not?
Answer by pressing keyboard “E” for word, “O for nonword”

Correct!

In the background, you are hearing a spoken letter: 🔊 ”F”


This goes on for some trials and then….
